

How **SECURE** is *your* data?

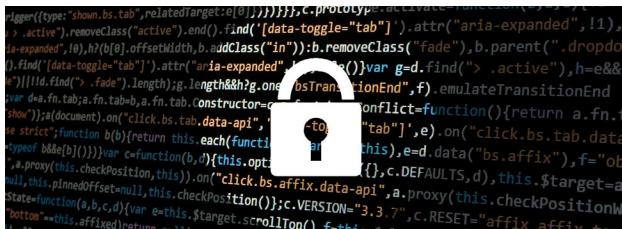

iConnect IP Security

D2K iConnect - Keeping Your Data Secure

Lock down your iConnect intranet site to specific branch IP addresses to guard your data and client information.

How can iConnect IP Security help you?

- Added protection for your sensitive customer data and propriety company information from employee theft
- Guarantees no access to former employees
- Special email authentication for Supervisors and above seeking remote access
- Easy interface to add or modify existing IP addresses

As security challenges continue to increase, D2K's iConnect platform is improving to meet those challenges head on!

The new feature locks down users.

IP Security allows you to authorize 1 or more IP addresses and even restrict them at a branch level.

A FREE Security Tool for your Piece of Mind

iConnect is D2K's proprietary intranet platform with applications designed to help you successfully manage your marketing program and streamline communication to your company's team members. Easy-to-use portals allow management of documents, calendars and important company information from a single login. Security is a core value for D2K Corp and iConnect has that covered for you – with user level access, encrypted data storage, 24-7 security monitoring, and secure data transfers – **just the peace of mind you need.**
