intraConnect

Enhancing Communications Through
Online Solutions

D2K works with a proprietary intranet platform called iConnect to build the online tools for your changing business needs. iConnect enables instant company communications from anywhere, eliminates file storage on site or in network drives. Easy to use, ability to limit access for levels of employees, the portal becomes your go-to-tool for running your business!

iConnect has standard and custom modules to complement your marketing campaigns. From managing complicated programs like live checks, to running reports of online loan applications, to human resource data – iConnect has what you need to achieve unity in your offices.
